Cooling Off This Summer: Importance of Hydration & Water Conservation

June marks the official start of summer, bringing longer days, sunshine, and warmer temperatures. Shasta County heat increases the need to stay hydrated, but it is also a time to be more mindful of water usage. Whether you're spending time outdoors, engaging in summer activities, or enjoying a cool drink, water is essential for both your well-being.

Hydration: Summer heat can be relentless and staying hydrated is critical to maintain your health. Aim to drink at least 8 glasses a day.

- **Regulates Body Temperature:** As temperatures rise, your body sweats more to cool off. Water helps regulate your body temperature, preventing heat exhaustion and heat stroke.
- **Boosts Energy:** Dehydration can make you feel sluggish and tired. Proper hydration keeps your energy levels up.
- **Supports Digestion:** Water aids in digestion, which can sometimes slow down in the heat.

Water Conservation Tips:

- Water your lawn and garden during cooler times of the day (early morning or late evening) to minimize evaporation. Use mulch to retain moisture in the soil.
- Use dishwashers and washing machines with full loads only.
- Use a broom to clean driveways, patios and sidewalks instead of water from a hose.

District news

Reminder - Clear Creek CSD District Office has new office hours. The office will be open from 8:00am to 4:30pm and close from 12:00pm - 12:30pm daily for lunch.
