Director

Interim General Manager

Jim Wadleigh

Monthly Board Meetings:

3rd Wednesday

at 6pm.

Current Usage Rates:

Domestic-
\$0.56/HCF

Ag- \$0.53/HCF

Water Use Efficiency Rebate Programs

High-Efficiency Clothes: Did you know almost 15% of the water used inside the home goes to laundry? Save up to 14 gallons of water per day with the purchase of a new washing machine. Find a list of qualified models and rebate information at: tinyurl.com/yszk6t9u

Premium High-Efficiency Toilets: Flushing a toilet uses the largest amount of water used inside the home, but less water is needed than the average toilet holds. Installing a high-efficiency toilet can reduce water waste by 20% and flush the same amount of waste. Select from a list of qualified products and estimate your rebate at: tinyurl.com/2fzx9cpk

Western Shasta Resource Conservation District

What is the RCD? The RCD manages a variety of resource conservation projects, including soil and water conservation, wildlife habitat enhancement and restoration, control of native/invasive plant species, wildfire mitigation and forest health, watershed restoration, conservation planning and more. RCDs provide technical, financial and educational resources and coordinate them to meet the needs of local land users for the conservation of soil, water and related natural resources. The WSRCD Board is made up of community members or landowners who have knowledge and interest in Natural Resources, educating the community and doing projects on the land. Membership is typically local farmers, ranchers, educators and resource professionals.

District news

Starting June 1, 2025. Clear Creek CSD District Office will be adjusting the hours of operation. The office will open from 8:00am to 4:30pm and close from 12:00pm - 12:30pm daily for lunch.

As we move into warmer weather, our team is hard at work preparing the system for the peak summer season. Water Treatment Plant staff have completed important maintenance tasks, including cleaning key infrastructure and replacing a major pipe section to ensure reliability. Also, following the winter leak repairs, some road restoration is needed. The Clear Creek Community Services District has scheduled road repairs for the first week of June. We appreciate your patience during these improvements and thank you for your continued support.

Clear Creek Community Services District is committed to our mission to provide Clean and Safe water to you our Customers and Community

Community

Happy Valley Farmers Market

The 2nd & 4th Saturday of each month starting May 10th through October from 8am to 11am. Located next to Bonney's Burger. Come and join the community supporting local produce and products.

Call Before You Dig

Ready to start digging? 811 is the national call before you dig phone number. There are many projects that could dig deep enough to impact Utilities – Water Lines, Electrical Lines and more. If you have a project, notify a few days before you start the project, confirm utilities have responded, respect the marks and dig carefully.

Call Before you Dig – Call 811 or visit Call811.com.

Resource Numbers:

- Illegal Dumping: Shasta District Atty: (530) 245-6387 or (866) 618-7274
- Recycling Info: Shasta County Resource Mgmt. (530)225-5787
- Free Collection Events: recycle.co.shasta.ca.us or (530) 225-5789
- Abandoned Vehicles: Shasta County Sheriff (530) 245-6025

Happy Valley Citizen Patrol:

Thank you for your support. Please continue to support this important function in Happy Valley - Happy Valley Citizen Patrol (530) 339-0706.

California Water Facts:

Precipitation: California receives an average of 198 million acre-feet of precipitation annually.

Water Management: Around 41.2% of the precipitation is controlled and used for various purposes.

Water Uses: Approximately 50.4% of controlled water is dedicated to environmental use. About 37.7% is used for agricultural irrigation and 8.8% is used by cities and industries.

Groundwater: Groundwater is a significant source of water, especially during drought years, accounting for about 40% of California's total annual supply in normal years and nearly 60% in drought years.

California's interconnected water system serves almost 40 million people and irrigates over 5,680,000 acres of farmland.
